IN THE SPECIFICATION:

Please amend Page 2, Paragraph [0008] to read as follows:

[0008] The token purchasing device includes a box like chassis, a banknote accepting unit, a token dispensing unit, a control unit with a programming keypad, a change dispensing unit, a display unit, a touch screen unit, and a coin accepting unit [[11]]. A user inserts a banknote into the banknote accepting unit. The banknote accepting unit asserts a banknote value signal to the control unit indicating the denomination of the banknote accepted. The control unit is programmed by entering time and date information on a keypad operatively connected to the control unit in order to define the time and date parameters of the special purchasing mode.
